Maryland has adopted the International Fuel Tax Agreement (IFTA). This is a base-state fuel tax agreement that requires motor carriers based in Maryland and operating in at least one other IFTA member jurisdiction to obtain a Maryland IFTA license and decals, which will be honored in all IFTA jurisdictions. The motor carrier files one fuel tax report with Maryland on which operations in all IFTA jurisdictions are reported. All contiguous United States and Canadian provinces are members of IFTA.

Exceptions are: Alaska; District of Columbia; and the Northwest, Nunavut and Yukon Territories of Canada. If you plan to operate in any of these jurisdictions, you must contact them individually for instructions.

The IFTA license offers several benefits to the interstate/interjurisdictional motor carrier. These benefits include one set of credentials, one quarterly tax report, which reflects the net tax or refund due, and one audit in most circumstances. These advantages all lead to cost and time savings for the carrier. For operations in non-IFTA jurisdictions, IFTA carriers must continue to follow the current procedures and file the reports required by the statutes and regulations of each non-IFTA jurisdiction.

You must register as an IFTA carrier if you qualify. If you operate 100% of your miles in Maryland, you do not need to register as a Maryland intrastate carrier provided those intrastate vehicles are tagged by the Maryland Motor Vehicle Administration.
